ATTN: Tom Jackson

Please review the attached draft carefully to ensure that it is consistent with your intent. In particular, please note that this draft, per your suggested language, applies to a situation where the Department of Transportation “requires water, sewer, **and** electrical utilities ... to be relocated.” Do you intend to require DOT to cover the village of Sauk City’s costs only if all three of these utilities must be relocated, e.g., is it clear that all three will need to be moved if USH 12 is reconstructed? If not, you may wish to change the language to “requires water, sewer, **or** electrical utilities ... to be relocated.” Please let me know if you want this changed.

Also, please let me know if you would like any other changes made to the attached draft or if you have any questions. If the attached draft meets with your approval, let me know and I will convert it to an introducible “/1” draft.
